EDUCATION

Valencia College, Poinciana, FL

December 2027

Associate of Arts, Computer Science

Relevant Coursework: Intro to Programming Concepts, Java Programming, Engineering Concepts and Methods.

SKILLS

Technical Skills: Java, Python, C++, C, MATLAB, Arduino

Languages: Native English, Basic Spanish

PROJECTS

Two-Link Robotic Arm

October 2024

- Coordinated a team of 4 to build a two-link robotic arm using embedded control and actuation logic
- Implemented pick-and-place functionality for precise object placement into a target container through coordinated motor control
- Rapidly prototyped, tested, and iterated the system during a 6-hour hackathon, completing a functional build in ~2 hours

Etch-a-Sketch Drawing Device

March 2025

- Led a team of 4 to design and build an Arduino-based system that recreates drawings from structured coordinate data
- Developed a data-to-motion pipeline that converted Excel and GeoJSON inputs into X-Y motor control instructions for precise dial manipulation
- Rapidly prototyped and completed a functional system in ~3 hours during a 6-hour hackathon, finishing ahead of competing teams

EXPERIENCE

First Watch, Davenport, FL

October 2025 - Present

Host & Server

- Coordinate seating, reservations, and guest flow in a high-volume environment to maintain efficient front-of-house operations
- Communicate across kitchen and service staff to ensure accurate order flow and timely service during peak hours
- Resolve guest concerns and adapt quickly to changing priorities in a fast-paced, customer-facing setting

Huey Magoo's Chicken Tenders, Davenport, FL

October 2022 - May 2024

Front of House Team Member

- Processed 100+ daily transactions using POS systems with accuracy and efficiency in a high-traffic environment
- Trained new employees on operational systems and procedures to improve onboarding consistency and workflow efficiency
- Supported daily operations by managing customer concerns and maintaining service quality during peak hours

LEADERSHIP & COMMUNITY INVOLVEMENT

Florida Poly Con, Lakeland, FL

March 2025

Check-in Volunteer

- Troubleshoot issues with ticketing software in real time, reducing bottlenecks and maintaining system reliability during peak entry periods
- Managed the digital check-in system for 1,600+ attendees, ensuring accurate data entry and smooth attendee processing during a campus-wide event
- Coordinated attendee and vendor routing across event locations to support efficient event flow and logistics execution
